INDEPENDENT AUDITOR'S REPORT

Summit Township Board Jackson, Michigan

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Summit Township, as of and for the year ended March 31, 2008, which collectively comprise the Summit Township's basic financial statements as listed in the table of contents. These financial statements are the responsibility of Summit Township's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Summit Township, as of March 31, 2008, and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with Government Auditing Standards, we have also issued our report dated September 5, 2008, on our consideration of the Summit Township's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing, and not to provide an opinion on the internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and important for assessing the results of our audit.

Independent Auditor's Report Page Two

The management's discussion and analysis and budgetary comparison information, as identified in the table of contents are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the Untied States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Summit Township's basic financial statements. The combining and individual non-major fund financial statements are presented for purposes of additional analysis and are not a required part of the basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations, and is also not a required part of the basic financial statements of Summit Township. The combining non-major fund financial statements and the schedule of expenditures of federal awards have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole, accordingly, we express no opinion on them.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Using this Annual Report

As management of Summit Township, we offer the readers of these financial statements this narrative overview and analysis of the financial activities of Summit Township for the fiscal year ended March 31, 2008.

This annual report consists of a series of financial statements. The Statement of Net Assets and the Statement of Activities provide information about the activities of the Township as a whole and present a longer-term view of the Township's finances. Fund financial statements tell how these services were financed in the short term, as well as what remains for future spending. Fund financial statements also report the Township's operations in more detail than the government-wide financial statements.

Summit Township as a Whole

The Township has combined net assets of \$27,075,070. A substantial portion of the Township's net assets (73%) reflects its investment in capital assets (e.g. land, buildings, machinery and equipment and infrastructure such as water and sewer lines and payments for road construction); less any related debt used to acquire those assets still outstanding. The Township uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the Township's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources since the capital assets themselves cannot be used to liquidate these liabilities.

Combined net assets decreased by \$605,608 or 2% during the year ended March 31, 2008. Looking at governmental activities separately from the business-type activities, we see that net assets decreased \$121,383.

Business-type activities report a decrease in net assets of \$484,225 this year as fees from services were not adequate to cover operating expenses. (Depreciation on capital assets of \$923,457 contributed to this decrease).

Summit Township as a Whole (Continued)

In a condensed format, the following table shows net assets as of March 31, 2008 and 2007:

	Governmen	tal Activities	Business-T	ype Activities	Total

Governmental Activities

The Township's management has taken actions to reduce expenditures. The Township does not have many options to increase revenue. The Township's total government activity revenues excluding transfers were \$3,204,305 this year. Property taxes were \$732,873 or 23% of the total revenues. Property tax increases are controlled by various State laws that restrict the increase in taxable values to amounts at or below the rate of inflation. State revenue sharing was \$1,504,061 or 47% of total governmental revenue. Distribution of this revenue is also controlled by State law. The remaining 30% of governmental activity revenue is comprised mostly of charges for services and investment income. The Township's budget is expended largely on public safety consisting of fire and police protection with expenditures of \$1,879,597 or 59%, and building code enforcement of \$138,692 or 4% of total expenditures. The remaining budget being dedicated to other functions such as elections, assessing, zoning, roads and streets and Township administration. Township management recognizes that at some point in the not too distant future the disparity of flat revenues and the ever increasing cost of public safety must be addressed.

Business-Type Activities

The Township's business-type activities consist of its Water and Sewer funds. Operating revenues of the business-type activities increased by \$79,960 or 2%. Operating expenses increased by \$33,603 or 1%. Much of the increase in expenditures is a result of higher costs of sewer purchases. While the business-type net assets decreased this past year, the decrease was less than depreciation charged on assets.

The Township's Funds

The fund financial statements provide a more detailed analysis of the Township's operations, which is focused primarily on the current use of available resources. The Township maintains several funds to help manage money designated for special purposes, as well as to show accountability for certain activities.

The General Fund, the major governmental fund, relates to the general governmental activities of the Township, which are financed by property tax levies, by distribution of State Shared revenues, and from fees charged for various municipal activities and services. The General Fund's fund balance decreased \$66,365 largely due to the transfer of \$125,000 to other funds for Township retiree health care. Total expenditures in the General Fund were \$2,861,000 this year including these fund transfers.

The Water and Sewer Fund is used to account for business-like activities provided to the Township's residents. The Township charges for water and sewer service and other related goods and services. Net assets decreased by \$484,225 in large part due to depreciation of \$923,457. Total Operating revenues of \$3,296,148 increased \$79,960 due to water and sewer rates being increased.

Total operating expenses of \$3,819,323 increased \$33,603. Major expenses include water and sewer purchases \$1,146,363, interest on debt \$75,688, and system maintenance and supplies \$560,805.

The Township's Funds (Continued)

The Township maintains several Special Revenue Funds to account for resources set aside for specific purposes as well as Expendable Trust Funds to account for assets held for individuals in a trustee capacity.

General Fund Budgetary Highlights

The original budget adopted for the Township's General Fund projected a \$109,325 decrease in fund balance. As the year progressed and actual events took place, an amended budget was adopted to reflect the changing financial picture.

The final General Fund budget projected a \$134,325 decrease in fund balance with the General Fund transferring \$125,000 to other funds.

Capital Asset and Debt Administration

At the end of the March 31, 2008 fiscal year, the Township had \$24,132,532 invested in its capital assets, net of accumulated depreciation. The Township invested in a new fire truck and a major addition to the water infrastructure by adding an additional elevated water storage tank.

A summary of capital assets follows:

	Governmental Activities			isiness-Type Activities	Total		
		(Net of	Accu	ımulated Depre	eciation)		
Land and improvements	\$	103,712	\$	273,678	\$	377,390	
Building and improvements		1,546,851		657,556		2,204,407	
Water and Sewer Systems		-		19,545,342		19,545,342	
Machinery & equipment		275,518		546,364		821,882	
Office equipment		40,378		-		40,378	
Vehicles		782,670		-		782,670	
Total	\$	2,749,129	\$	21,022,940	\$	23,772,069	

At the end of the year the Township had total debt outstanding of \$4,311,494. The debt represents general obligation bonds from the water and sewer fund.

Economic Factors and Next Year's Budgets and Rates

The Township anticipates that 2008/2009 will present continuing fiscal challenges with little to no increase in revenue sharing from the State as the Township millage remains constant.

Along with efficiently carrying out routine managerial and operating responsibilities, management continues to face the challenge of exploring, identifying and implementing cost saving measures as well as planning for the future of Summit Township.

Among these is the signing of a contract extension for police services with the Jackson County Sheriff more than a year ahead of schedule. This locks in the current terms for an additional 4 years. Another example is a recently executed contract with the Jackson Transportation Authority (JTA) to purchase gasoline and diesel fuel for Township vehicles. In this day of ever-increasing fuel costs the Township expects this to save at least \$.25/gallon compared with the previous retail purchasing practice. The Township is also continuing the contract with Leoni Township to provide after hours service and sewer mini-can maintenance/repair for its pressure sewer system.

Building construction activity continues to be significantly below prior years and has resulted in the need to address the fixed costs associated with providing the related inspection services. In addition to asking the Building Inspector to oversee Township facilities maintenance and modification responsibilities, the Township also intends to sign a contract for providing inspection services to Napoleon Township, thereby sharing costs and preserving the integrity of Summit Township's Building Inspection Department.

Construction of a new elevated water storage tank to comply with the Michigan Department of Environmental Quality (DEQ) requirements will be completed in the fall of 2008. Emergency generators for three other water towers will also be installed during the year. A study of water department costs will be conducted to determine if a rate increase may be necessary in fiscal year 2009/2010.

The Township's Department of Public Works (DPW) will begin construction of sanitary sewer for the connection to Jackson Community College (JCC) that will enable the college to retire their independent sewage treatment system. This is being accomplished on a shared cost basis with JCC and will also provide sewer service for other residents and future development in the southeastern part of the Township.

Ordinance enforcement is often a thankless job. The Township's Ordinance Enforcement Office has diligently and prudently addressed this responsibility by being responsive to resident concerns with the objective of resolving problems. Though a significant increase in mortgage foreclosures and abandonment of homes continues to exacerbate enforcement of the Townships Noxious Weed Ordinance, a persistent expectation of financial institutions and realtors responsible for these properties is keeping this under control.

The study of a metro fire concept throughout the City of Jackson and the townships of Blackman, Leoni and Summit have been ongoing for nearly two years. The report is nearing completion and draft versions suggest that a full fledged Metro Fire Department is not achievable at this time. However, a number of areas where cooperation and collaboration can achieve improved service and/or cost management have been identified and will be pursued.

Economic Factors and Next Year's Budgets and Rates (Continued)

Effective April 1, 2008 Summit Township named Scot Harvey as Chief of the Fire Department. Chief Harvey had been acting chief for the previous 18 months. Chief Harvey will be commissioning three new pieces of fire apparatus the township expects to place in service in May. The total cost of this equipment was \$783,749 and is being paid from reserves set aside by past Boards of Trustees for needs such as this.

The Township completed the 5 year review of its Recreation Plan during the past year. The overwhelming interest among Township residents is for further development of "non-motorized trails". We hope to work with the County Parks and County Road Commission for repair of existing and development of future trails.

The State mandated 5 year review and update of the Land Use Plan will be getting underway this year.

The Codification project (a comprehensive review and reorganization of the Township's ordinances) begun in 2006 is nearing completion. In addition to the final hard copy set of up-to-date ordinances for reference in the office, there will also be a searchable, on-line set available through a link on the Township website. The ordinances will be kept current via an update of changes made each year.

The Township also plans to continue the cooperative effort with the City of Jackson and the Ella Sharp Park Board to reduce the deer population in and around Sharp Park (Summit Township surrounds the park on three sides) and Cascades. The first phase of this plan was implemented in January, 2008 with the harvesting of 80 deer. The State Department of Natural Resources indicates this number will need to be removed annually for at least the next four years to result in any significant population reduction.

Contacting the Township's Management

This financial report is intended to provide our citizens, taxpayers, customers and investors with a general overview of the Township's finances and to show our accountability for the money received. If you have questions about this report, or would like additional information, we welcome you to contact the Township Supervisor at 2121 Ferguson Rd, Jackson, Michigan 49203.

RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET TO THE STATEMENT OF NET ASSETS MARCH 31, 2008

Total fund balance - total governmental funds	\$ 4,686,515
Amounts reported for governmental activities in the statement of net assets are different because:	
Capital assets used in governmental activities are not current financial resources and therefore are not reported in the governmental funds balance sheet. For purposes of this reconciliation capital assets are netted with accumulated	
depreciation.	2,749,129
The Township has a road agreement with the County Road Commission to share in the cost of road construction. The Township does not own or maintain these roads and therefore they are not reported in the governmental	210.000
funds balance sheet. Amount shown net of related amortization.	310,292
The Township's road agreement payments are spread over a five year period. Long term liabilities are not reported in the governmental funds balance sheet.	(64,720)
Accrued leave is not due and payable in the current period and, therefore, is not reported in the governmental funds balance sheet.	(195,005)
Net assets of governmental activities	\$ 7,486,211

Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balance of Governmental Funds to the Statement of Activities.

Year ended March 31, 2008

Net change in fund balances - total governmental funds	\$ (549,712)
Amounts reported for governmental activities in the statement of activities are different because:	
Government funds report capital outlay as expenditures. However, in the government wide statement of activities and changes in net assets, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount of capital assets recorded in the current period.	671,120
Depreciation expense on capital assets is reported in the government-wide statement of activities and changes in net assets, but they do not require the use of current financial resources. Therefore, depreciation expense is not reported as an expenditure in governmental funds.	(165,989)
Governmental funds report road payments to the County Road Commission as expenditures. However, in the government wide statement of activities and changes in net assets, the cost of those intangible assets is allocated over their estimated useful lives as amortization expense.	71,716
Amortization expense on intangible assets is reported in the government-wide statement of activities and changes in net assets, but they do not require the use of current financial resources. Therfore, amortization expense is not reported as an expenditure in governmental funds.	(17,503)
Governmental funds report sale of fixed assets as income. However, in the government wide statement of activities and changes in net assets, the sale of fixed assets are netted with net cost to record a gain or loss on sale of the asset.	(131,872)
Earned leave expenses reported in the statement of activities do not require the use of current financial resources, therefore, are not reported as expenditures in governmental funds.	857_

The accounting policies of Summit Township, Michigan (the "Township") conform to generally accepted accounting principles generally accepted in the United States of America (GAAP) as applicable to governmental entities. The following is a summary of the significant policies used by Summit Township, Michigan.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

A. DESCRIPTION OF TOWNSHIP OPERATIONS:

Summit Township was organized in 1857 and is located in the center of Jackson County. The Township operates under an elected Board of Trustees and Officers and provides services to its more than 21,500 residents in many areas, including law enforcement, fire protection, water and sewer operations, community enrichment and development, human services, and general administrative services.

B. REPORTING ENTITY:

Summit Township is a municipal corporation governed by an elected board of trustees. The accompanying basic financial statements have been prepared in accordance with criteria established by the Governmental Accounting Standards Board for determining the various governmental organizations to be included in the reporting entity. In accordance with this criteria, there are no component units included in this reporting entity.

C. GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS:

The government-wide financial statements (i.e. the statement of net assets and the statement of activities) report information on all of the nonfiduciary activities of the Township. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, normally supported by taxes and intergovernmental revenues, are reported separately from business-type activities which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include: (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment; and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenue.

Separate financial statements are provided for governmental funds, proprietary funds and fiduciary funds, even though the latter are excluded from the government wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as a separate column in the fund financial statements.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICES: (Continued)

D. MEASUREMENT FOCUS, BASIS OF ACCOUNTING AND FINANCIAL STATEMENT PRESENTATION

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenue is recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenue in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenue is recognized as soon as it is both measurable and available. Revenue is considered to be available if it is collected within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Township considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, expenditures relating to compensated absences, and claims and judgments are recorded only when payment is due. All other revenue items are considered to be available only when cash is received by the government.

The Township reports the following major governmental fund:

• The General Fund is the government's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The Township reports the following nonmajor funds:

- The Building and Site Special Revenue Fund accounts for resources set aside for Township capital improvements.
- The Public Improvement Special Revenue Fund accounts for resources set aside for Township improvements which cannot be used for general government purposes.
- The Equipment Special Revenue Fund accounts for resources set aside for the purchase of equipment.
- The Street Lighting Special Revenue Fund accounts for the costs of lighting certain portions of the Township, and the special assessments levied upon benefiting property owners to finance these districts
- The Improvement Revolving Special Revenue Fund accounts for all resources set aside for future capital improvements.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICES: (Continued)

- D. MEASUREMENT FOCUS, BASIS OF ACCOUNTING AND FINANCIAL STATEMENT PRESENTATION (Continued)
 - The Building Code Special Revenue Fund accounts for all activities of the building department. This fund was established to facilitate compliance with Michigan Public Act 245 of 1999, which requires that fees charged bear a reasonable relationship to the costs of operating a building department.

The Township reports the following major proprietary funds:

 The Water and Sewer Fund is used to account for business-like activities provided to the general public. These activities are financed primarily by user charges and the measurement of financial activity focuses on net income measurement similar to the private sector.

The Township also reports the following fund types:

- The Expendable Trust Funds Medical Insurance and Sick Pay Funds account for assets held for individuals in a trustee capacity.
- The Agency Funds Trust and Agency and Current and Delinquent Tax Funds account for assets held for other governments and individuals in an agency capacity.

Private-sector standards of accounting issued prior to December 1, 1989 are generally followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with the standards issued by the GASB. The Township has elected to also follow private-sector standards issued after November 30, 1989 for its business-type activities.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are charges between the Township's water and sewer function and various other functions of the Township. Elimination of these charges would distort the direct costs and program revenues for the various functions concerned

Amounts reported as program revenue include: (1) charges to customers or applicants for goods, services, or privileges provided; (2) operating grants and contributions; and (3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenue rather than as program revenue. Likewise, general revenue includes all taxes levied by the Township.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICES: (Continued)

D. MEASUREMENT FOCUS, BASIS OF ACCOUNTING AND FINANCIAL STATEMENT PRESENTATION (Continued)

Proprietary funds distinguish operating revenue and expenses from nonoperating items. Operating revenue and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenue of the Township's proprietary funds relates to charges to customers for services provided. The Water and Sewer Fund also recognize the portion of tap on fees intended to recover current costs (e.g. the labor and materials to hook up new customers) as operating revenue. The portion intended to recover the cost of the infrastructure is recognized as capital grants and contributions. Operating costs for proprietary funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenue and expenses not meeting this definition are reported as nonoperating revenue and expenses.

When both restricted and unrestricted resources are available for use, it is generally the Township's policy to use restricted resources first, then unrestricted resources as they are needed.

E. ASSETS, LIABILITIES, AND NET ASSETS/EQUITY

DEPOSITS AND INVESTMENTS

The Township reports cash on hand, demand deposit bank accounts, short term investments with an original maturity of three months or less from the date of acquisition, as cash and cash equivalents. Financial instruments not meeting these criteria are reported as investments. The Township reports investments at their fair value.

2. RECETVABLES AND PAYABLES

In general, outstanding balances between funds are reported as "due to/from other funds". Activity between funds that is representative of lending/borrowing arrangements outstanding at the end of the fiscal year is reported as "advances to/from other funds". Any residual balances outstanding between the governmental activities and the business-type activities are reported in the government-wide financial statements as "internal balances".

The Township has not established a reserve for uncollectible accounts based on its past experience.

The Township records various receivables which are listed and described as follows:

a) Accounts - The accounts receivable in the general, special revenue, and enterprise funds are charges for services, which have been billed but not yet received.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICES: (Continued)

E. ASSETS, LIABILITIES, AND NET ASSETS/EQUITY (Continued)

2. RECEIVABLES AND PAYABLES: (Continued)

- b) Main Tap Fees The Township records the assessments levied for the water system for which payment will be made with an assessment on the property over a period of years.
- c) Connection Fees The connection fees in the Enterprise Fund represent hook-up charges to the benefited parties for which payment will be made over a number of years.
- d) Notes Receivable The Township records all notes in the appropriate funds as transactions occur.
- e) Accrued Interest Accrued interest is recorded in the Special Revenue Funds and the Water and Sewer Fund for interest earned but not yet received.
- f) Special Assessment The Township records the assessments levied for the sewer system for which payment will be made with an assessment on the property over a period of years.

3. PREPAID EXPENSES

Certain payments to vendors reflect costs applicable to future fiscal years and are recorded as prepaid expenses in both government-wide and fund financial statements.

INVENTORIES

Inventories are valued at the lower of cost or market, the inventories in the business type activities consist of grinder pumps and water meters available for sale.

CAPITAL ASSETS

Capital assets, which include property, plant, and equipment, are reported in the applicable governmental or business-type activities column in the government-wide financial statements. Capital assets are defined by Township policy as assets with an individual cost or value of \$5,000 or more when acquired and a useful life in excess of one year. Purchased assets are recorded at their actual costs. Donated capital assets are reported at their estimated fair market value at the date of donation. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend its useful life are not capitalized.

Interest incurred during the construction of capital assets of business-type activities is included as part of the capitalized value of the assets constructed. During the current year, no interest expense was capitalized as part of the cost of assets under construction.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (Continued)

E. ASSETS, LIABILITIES, AND NET ASSETS/EQUITY (Continued)

CAPITAL ASSETS (Continued)

Capital assets are depreciated using the straight-line method over the following useful lives:

Assets	Years
Land and Improvements	10-20
Building and Improvements	10-40
Sewer and Water Systems	10-50
Machinery and Equipment	5-20
Office Equipment	5
Vehicles	5-20

Depreciation is allocated to the appropriate function in the government-wide financial statements. Assets such as the municipal building, which is a multi-function facility, are allocated to the general government function.

6. ACCRUED LEAVE PAYABLE:

The Township policy is to accrue unused sick pay for all employees. However, an employee cannot accrue more than 110 days of sick time. At the end of the fiscal year, all excess accumulated sick leave is paid to the employees at their regular rate of pay. One week's vacation may be carried to the following year. Any unused vacation pay at the end of the fiscal year is paid to the employees at their regular rate of pay. A liability for accrued sick and vacation time has been established in the government-wide financial statements.

LONG-TERM OBLIGATIONS

In the government-wide financial statements and the proprietary fund types in the fund financial statements, long-term debt and other obligations are reported as liabilities in the appropriate governmental activities, business-type activities, or proprietary fund type statement of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the effective interest method. These costs are reported net of accumulated amortization as bond issuance cost.

FUND EQUITY

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation (e.g. prepaid expenses) or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (Continued)

E. ASSETS, LIABILITIES, AND NET ASSETS/EQUITY (Continued)

9. ESTIMATES:

The preparation of financial statements in conformity with generally accepted accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

NOTE 2 - STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY:

A. BUDGETARY INFORMATION:

Formal budgetary integration is employed as a management control device during the year for the General Fund and all Special Revenue Funds. These budgets are adopted on a basis consistent with generally accepted accounting principles generally accepted in the United States of America (GAAP). Budget amounts included in the financial statements are as originally adopted, and the final amended budget adopted by the Township Board. Budget amendments may be adopted by a simple majority vote of the Board at any open meeting of the Board. All appropriations lapse at the end of the fiscal year.

B. EXCESS OF EXPENDITURES OVER APPROPRIATIONS:

Public Act #621 of 1978, Section 18(1), as amended, provides that a local unit shall not incur expenditures in excess of the amounts appropriated. In the body of the financial statements, the Township's actual and budgeted expenditures for the budgetary funds (General Operating and Special Revenue Funds) have been shown on a functional basis. The approved budgets of the Township for these funds were adopted to the departmental level. For the year ended March 31, 2008, the Township incurred expenditures in the budgetary funds which were in excess of the amounts budgeted as follows:

	Budget		Actual		V	ariance
General Fund:						
Township hall and grounds	\$	102,600	\$	103,266	\$	(666)
Police department		451,900		452,372		(472)
Total	\$	554,500	\$	555,638	\$	(1,138)

NOTE 3 - DEPOSITS AND INVESTMENTS:

Michigan Compiled Laws, Section 129.91 (Public Act 20 of 1943, as amended) authorizes the local government unit to make deposits and invest in the accounts of federally insured banks, credit unions, and savings and loan associations which have an office in Michigan.

The Township is allowed to invest in bonds, securities, and other direct obligations of the United States or an agency or instrumentality of the United States; United States government or federal agency obligations; repurchase agreements; bankers' acceptance of United States banks; commercial paper rated within the two highest classifications and which mature not more than 270 days after the date of purchase; obligations of the State of Michigan or its political subdivisions which are rated as investment grade; and mutual funds composed of investment vehicles which are legal for direct investment by local units of government in Michigan.

The Township's deposits and investment policy are in accordance with statutory authority.

The Governmental Accounting Standards Board (GASB) Statement No. 3 risk disclosures for the Township's deposits are as follows:

,	Carrying Amount			Bank Balance
Cash on hand	\$	\$ 200		
Insured (FDIC)		400,000		400,000
Uninsured		4,206,008		4,630,024
Uncategorized - Investment pool		2,923,710		2,923,710
	\$	7,529,918	\$	7,953,734
Reported in financial statements:				
Governmental Funds	\$	4,215,783		
Proprietary Funds (Business-type)		2,369,684		
Fiduciary Funds		944,451		
	\$	7,529,918		

The Township has invested cash in excess of current requirements in governmental pooled investment funds and certificates of deposit which is allowable under State Law.

Custodial Credit Risk – Custodial credit risk is the risk that in the event of a bank failure, the deposits may not be returned to the Township. The Township does not have a deposit policy for custodial credit risk.

Interest Rate Risk – Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The Township limits exposure risk to interest rate risk by having investments at short-term maturities.

Concentration of Credit Risk – Concentration of credit risk is the risk of loss attributed to the magnitude of a Government's investment in a single issuer. As of March 31, 2008, Summit Township held 23% of its deposits and investments with Flagstar Bank, 28% with Citizens Bank, 12% with American 1 Federal Credit Union, and 37% with MBIA investment pool.

NOTE 4 - INTERFUND RECEIVABLES AND PAYABLES:

The amount of interfund receivables and payables at March 31, 2008 are as follows:

FUND	REC	EIVABLES	FUND	PA	YABLES
General	\$	534,752	Water and Sewer Improvement Revolving Building Code Medical Insurance Sick Pay Trust and Agency	\$	160,569 286,893 30,420 12,000 12,516 364

Governmental Activities: Total depreciation expense, governmental activities	\$ 165,989
Business-Type Activities: Total depreciation expense, business-type activities	\$ 923,457

NOTE 6 - NOTES RECEIVABLE:

In an effort to encourage a large manufactured housing development to connect to the municipal water system, Summit Township offered to finance the water main tap extensions for the private owners. A formal note exists calling for monthly payments plus interest at 10 percent. The remaining balance of \$2,010 represents the current balance as of March 31, 2008.

NOTE 7 - SPECIAL ASSESSMENTS RECEIVABLE:

The Township allowed residents within the special assessment districts the option of paying over a ten to eighteen year period. Interest is charged at 7 to 7.25% over the average bond rate. No allowance for uncollectible accounts has been established as the assessments create a first lien against the assessed property. Past experience has indicated that the receivable will be completely collected. The remaining balance of \$36,363 represents the current balance as of March 31, 2008.

NOTE 8 - LONG-TERM DEBT:

The Township issued bonds to finance the construction of a water system extension. These bonds are general obligation unlimited tax bonds, and pledge the full faith and credit of the Township.

The following is a summary of the Township's long-term debt transactions for the year ended March 31, 2008:

	Balance 03/31/07	Repayments	Additional Debt	Balance 03/31/08
Governmental Activities:		•		
Township road agreement - Jackson	A 300 145	0 (64 50 5)	Φ.	
County Road Commission	\$ 129,445	\$ (64,725)		\$ 64,720
Business-Type Activities: General Obigation bonds - Summit Township 1998 Michigan Municipal Bond Authority Michigan Drinking Water Revolving Fund Program - DPW Bonds issued through the State of Michigan. \$4,630,000 maturing semiannually in annual amounts ranging from \$180,000 to				
\$280,000, at an interest rate of 2.50%	3,130,000	(205,000)		2,925,000

NOTE 8 - LONG-TERM DEBT: (Continued)

Presented below is a summary of debt service requirements to maturity by years:

Year Ending	Business-Type Activities				
March 31	F	rinciple]	Interest	
2009	\$	305,000	\$	98,588	
2010		315,000		91,256	
2011		325,000		83,631	
2012		330,000		75,818	
2013		340,000		67,882	
Thereafter		2,631,774		222,566	
	\$	4,246,774	\$	639,741	

NOTE 9 - FUND EQUITY:

A. RESERVES AND DESIGNATIONS:

Board action and requirements of generally accepted accounting principles have reserved and designated portions of fund equity in certain funds, indicating the amount not available for funding current year's activities. These can be summarized as follows:

	_	eneral Fund	Pr	oprietary Fund	F	iduciary Funds	Total
Designated: Compensated Absences	\$		\$		\$	195,005	\$ 195,005
Restricted: Prepaid Expenses Inventory	\$ 	25,669 - 25,669	\$	286,024 286,024	\$	11,856 - 11,856	\$ 37,525 286,024 323,549

NOTE 10 - PROPERTY TAXES:

Real and personal property taxes are levied on December 1st of each year, and are due to the Township by the last day of the following February. The Township is responsible for assessing, collecting and distributing property taxes in accordance with State law. Delinquent real property taxes are paid to the Township by Jackson County. Therefore, the General Fund reflects as revenues, the full amount of real taxes levied during the year. The personal property taxes are reflected as revenues in the year collected, which does not materially differ from the full accrual method of revenue recognition.

The Township's operating tax rate for the year ended March 31, 2008 was .8168 mills, levied on property with a Taxable Value of \$636,825,633 dollars.

NOTE 11 - PENSION PLAN:

Defined Benefit Pension Plan:

Substantially all of Summit Township's employees participate in the Michigan Municipal Employee's Retirement System ("the System"), a multiple employer public employee retirement system. The payroll for employees covered by the System for the year ended December 31, 2007 was \$1,528,316 and the Township's total payroll for the year was \$1,683,432.

All Summit Township's full time salaried, union, clerical, and all Board Members are eligible to participate in the System. The System's retirement eligibility, vesting, and benefits are determined as follows:

	NON-UNION	UNION
Retirement Eligibility	Age 60/55 with 8/20 or more years of credited service, respectively	Age 60/50 with 8/25 or more years of credited service, respectively
Vesting	After 8 years of service	After 8 years of service
Benefit Formula	2.5% of Final Average Compensation, multiplied by credited service with a maximum benefit of 80% of the Final 3 years of Average Compensation.	2.5% of Final Average Compensation, multiplied by credited service with a maximum benefit of 80% of the Final 3 years of Average Compensation.

The System also provides death and disability benefits. Benefits are established by state statute. Benefit D-2 was adopted to provide a retirement allowance for a duty-connected disability.

Employees are not required to make contributions to the System. However, they may elect to contribute a percentage of their annual compensation. The percent is selected by the member's municipality ranging from 0% to 10% in 0.1% increments.

The "Actuarial Accrued Liability" is a standardized disclosure measure of the present value of pension benefits, adjusted for the effects of projected salary increases estimated to be payable in the future as a result of employee service to date. The measure, which is the actuarial present value of credited projected benefits, is intended to help users assess the System's funding status on a going-concern basis, assess progress made in accumulating sufficient assets to pay benefits when due, and make comparisons among public employee retirement systems and employers.

NOTE 11 - PENSION PLAN: (Continued)

The Actuarial Accrued Liability for Summit Township at December 31, 2007, (the most recent date available) is determined through an actuarial valuation performed as of that date. Significant actuarial assumptions used in determining the pension benefit obligation included (a) a rate of return on the investment of present and future assets of 8.0%, (b) projected salary increases of 4.5% per year compounded annually, attributable to inflation, (c) additional projected salary increases of 0.0% to 4.2% per year, depending on age, attributable to seniority/merit, and (d) the assumption that benefits will increase 2.5% annually after retirement.

At December 31, 2007, for Summit Township, the Actuarial Accrued Liability was \$1,789,867 determined as follows:

Retirees and beneficiaries currently receiving benefits	\$	4,082,447
Terminated employees not yet receiving benefits		186,195
Current employees -		
Accumulated employee contributions, including		
allocated investment income		154,775
Employer financed		3,779,744
Total Actuarial Accrued Liability		8,203,161
Net assets available for benefits, at actuarial value		
(Market Value is \$6,488,109)		6,413,294
Unfunded (overfunded) actuarial accrued liability	_\$	1,789,867

During the year ended December 31, 2007, the plan for Summit Township experienced a net decrease of \$509 in the Unfunded Actuarial Liability. The combined change in the Unfunded Actuarial Liability resulting from benefit changes and revisions in actuarial assumptions is \$0.

Contributions Required and Contributions Made

The Plan's funding policy provides for periodic employer contributions at actuarially determined rates that, expressed as percentages of annual covered payroll, are designed to accumulate sufficient assets to pay benefits when due. The payments for the fiscal year ended March 31, 2007 were determined using an attained age actuarial funding method. Unfunded Actuarial Accrued Liabilities, if any, were amortized as a level percent of payroll over a period of 30 years. Significant actuarial assumptions used to compute contribution requirements were the same as those used to compute the standardized measure of the Unfunded Actuarial Liability.

The annual required and actual contribution as of December 31, 2007 was \$293,232.

NOTE 11 - PENSION PLAN: (Continued)

Trend Information

Trend information gives an indication of the progress made in accumulating sufficient assets to pay benefits when due. Trend information for the plan's year ended December 31 is presented as follows:

	Net Assets Avail- able for Benefits as Percentages	UAL as Percentages of Annual	Employer Co. Percentages of A	ntributions as
Year	of the UAL	Payroli	Union	Non-Union
1998	89.00%	42.00%	11.20%	15.74%
1999	94.00%	24.00%	10.37%	15.31%
2000	87.00%	56.00%	10.79%	17.75%

NOTE 12 - FUND BALANCE RESTATEMENT

The Township receives revenues from franchise fees, in prior years the revenues were received on a semiannual basis. For the year ended March 31, 2008 the franchise fees were being received on a quarterly basis. Beginning Fund Balance/Net Assets were restated (an increase of \$40,225) in the governmental activities/general fund to account for this change.

NOTE 13 - RISK MANAGEMENT:

The Township is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. During the year ended March 31, 2008, the Township carried commercial insurance to cover all risks of losses. The Township has had no settled claims resulting from these risks that exceeded commercial insurance coverage amounts in any of the past three fiscal years.

NOTE 14 – OTHER POSTRETIREMENT BENEFITS:

The Township provides postretirement health benefits for certain retirees and their spouses, as per the requirements of a Township Board resolution. The Township pays 100 percent of the premiums of health coverage for employees and their spouse who retires with 20 years of service and have reached the age of 55 or combination of service and age equaling 80 with a minimum of 15 years of service. Surviving spouses are covered at a single person rate for life or until remarried. These transactions are accounted for in the Medical Insurance Expendable Trust Fund. Expenditures under the plan totaled \$136,090 during the fiscal year ended March 31, 2008, and are funded on a pay as you go basis.

NOTE 15 - SUBSEQUENT EVENTS:

The Township currently is constructing an elevated water storage tank. The Township has secured financing through the Michigan Municipal Bond Authority in the amount of \$2,360,000. As of March 31, 2008, \$1,321,774 had been borrowed for this project. The project is scheduled to be completed in 2008/09.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Summit Township Board Jackson, Michigan

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information information of Summit Township, as of and for the year ended March 31, 2008, which collectively comprise Summit Township's basic financial statements and have issued our report thereon dated September 5, 2008. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered Summit Township's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Summit Township's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Summit Township's internal control over financial reporting.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects Summit Township's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of Summit Township's financial statements that is more than inconsequential will not be prevented by Summit Township's internal control.

Report on Internal Control over Financial Reporting and on Compliance and other Matters Based on an Audit of Financial Statements Performed in accordance With *Government Auditing Standards*Summit Township
Page Two

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by Summit Township's internal control.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Summit Township's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We noted certain other matters that we reported to management of Summit Township in a separate letter dated September 5, 2008.

This report is intended solely for the information and use of management, Summit Township's Board, others within the entity, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

Summit Township Board Jackson, Michigan

Compliance

We have audited the compliance of Summit Township with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement that are applicable to each of its major federal programs for the year ended March 31, 2008. Summit Township's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of Summit Township's management. Our responsibility is to express an opinion on Summit Township's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; and OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Summit Township's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of Summit Township's compliance with those requirements.

In our opinion, Summit Township complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended March 31, 2008. However, the results of our auditing procedures disclosed instances of noncompliance with those requirements, which are required to be reported in accordance with OMB Circular A-133 and which are described in the accompanying schedule of findings and questioned costs.

Report on Compliance With Requirements Applicable to Each Major Program and on Internal Control Over Compliance In Accordance with OMB Circular A-133 Summit Township Jackson, County Page Two

Internal Control Over Compliance

The management of Summit Township is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered Summit Township's internal control over compliance with the requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Summit Township's internal control over compliance.

A control deficiency in an entity's internal control over compliance exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect noncompliance with a type of compliance requirement of a federal program on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to administer a federal program such that there is more than a remote likelihood that noncompliance with a type of compliance requirement of a federal program that is more than inconsequential will not be prevented or detected by the entity's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that material noncompliance with a type of compliance requirement of a federal program will not be prevented or detected by the entity's internal control.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses, as defined above.

Summit Township's response to the findings identified in our audit are described in the accompanying schedule of findings and questioned costs. We did not audit Summit Township's response and, accordingly, we express no opinion on it.

This report is intended solely for the information and use of management, the Township Board, others within the entity, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

Markowski & Company, CPAs

Jackson, Michigan September 5, 2008.

SCHEDULE OF FINDINGS AND QUESTIONED COSTS FOR THE YEAR ENDED MARCH 31, 2008

SECTION I - Summary of Auditor's Results

Financial Statements Type of auditor's report issued: Unqualified Internal control over financial reporting: ____ Yes <u>X</u> No Material Weakness(es) identified Reportable condition(s) identified that are not considered to be material weaknesses: X Yes None reported ____ Yes X No Noncompliance material to financial statements noted? Federal Awards Internal control over major programs: ____ Yes <u>X</u> No Material Weakness (es) identified Reportable condition(s) identified that are not considered to be material weaknesses: ____ Yes X None reported Type of auditor's report issued on compliance for major programs: Qualified Any audit findings disclosed that are required to be reported in accordance with Section 510(a) of Circular A-133? ____ Yes <u>X</u> No

SCHEDULE OF FINDINGS AND QUESTIONED COSTS FOR THE YEAR ENDED MARCH 31, 2008

SECTION I - Summary of Auditor's Results (Continued)

Identification of major programs:	
CFDA Number(s)	Name of Federal Program or Cluster
66.468	Safe Drinking Water State Revolving Fund
Dollar threshold used to distinguish between type A and type B programs:	\$300,000
Auditee qualified as low-risk auditee?	YesX No

SCHEDULE OF FINDINGS AND QUESTIONED COSTS FOR THE YEAR ENDED MARCH 31, 2008

Section II - Financial Statement Findings

Condition: Preparation of financial statements in accordance with generally accepted accounting principles (GAAP) requires internal controls over both (1) recording, processing, and summarizing accounting transactions (i.e. maintaining internal books and records) and (2) reporting government-wide and fund financial statements, including the related footnotes (i.e., external financial reporting).

As is the case in many small entities, Summit Township has historically relied on its independent external auditors to assist in the preparation of its government-wide and fund financial statements and footnotes as part of its external financial reporting process. Accordingly, Summit Township's ability to prepare financial statements in accordance with GAAP is based in part on its reliance on its external auditors, who cannot by definition be considered a part of Summit Township's internal controls.

Recommendation: Options to be considered by Summit Township would be obtaining additional training for its staff to familiarize them with the requirements of preparing external financial reports, or retaining the services of a CPA independent of the current audit process to prepare/review the financial statements prior to their issuance.

Management's Response: Management believes that the current practice of the external auditor assisting in external financial reporting is the most cost effective means of preparing the required external financial reports.

SCHEDULE OF FINDINGS AND QUESTIONED COSTS FOR THE YEAR ENDED MARCH 31, 2008

Section III - Federal Award Findings and Questioned Costs

There were no findings or questioned costs during the audited period.

COMMUNICATION OF AUDITOR/TOWNSHIP RESPONSIBILITY

Township Board Summit Township Jackson County, Michigan

We have audited the financial statements of Summit Township as of and for the year ended March 31, 2008, and have issued our report thereon dated September 5, 2008. Professional standards require that we provide you with the following information related to our audit.

Our responsibility under Generally Accepted Auditing Standards

As stated in our engagement letter dated June 23, 2008 our responsibility, as described by professional standards, is to plan and perform our audit to obtain reasonable, but not absolute, assurance that the financial statements are free of material misstatement and are fairly presented in accordance with accounting principles generally accepted in the United States of America. Because of the concept of reasonable assurance and because we did not perform a detailed examination of all transactions, there is a risk that material errors, irregularities, or illegal acts, including fraud, may exist and not be detected by us.

Significant Accounting Policies

Management has the responsibility for selection and use of appropriate accounting policies. In accordance with the terms of our engagement letter, we will advise management about the appropriateness of accounting policies and their application. The significant accounting policies used by Summit Township are described in Note 1 to the financial statements. We noted no transactions entered into by the Township of Summit during the year that were both significant and unusual, and of which, under professional standards, we are required to inform you, or transactions for which there is a lack of authoritative guidance or consensus.

Accounting Estimates

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. The most sensitive estimate affecting the financial statements was the depreciable lives of the capital assets.

We evaluated the lives of each of the assets to determine that they are being expensed over the proper period of time.

Township Board Summit Township Page Two

Significant Audit Adjustments

For purposes of this letter, professional standards define a significant audit adjustment as a proposed correction of the financial statements that, in our judgment, may not have been detected except through our auditing procedures. These adjustments may include those proposed by us but not recorded by Summit Township that could potentially cause future financial statements to be materially misstated, even though we have concluded that such adjustments are not material to the current financial statements. We noted audit adjustments that could, in our judgment, either individually or in the aggregate, have a significant effect on Summit Township's reporting process. Please see the attached memorandum of comments and recommendations.

Disagreements with Management

For purposes of this letter, professional standards define a disagreement with management as a matter, whether or not resolved to our satisfaction, concerning a financial accounting, reporting, or auditing matter that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to Summit Township's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Issues Discussed Prior to Retention of Independent Auditors

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as Summit Township's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

Difficulties Encountered in Performing the Audit

The staff at the Township was extremely helpful and cooperative during our audit. We did not encounter any difficulties in completing our audit.

This information is intended solely for the use of the Township Board and management of Summit Township and should not be used for any other purpose.

Very truly yours,

Markewski & Company CPAs
MARKOWSKI & COMPANY CPAS

September 5, 2008

MEMORANDUM OF COMMENTS AND RECOMMENDATIONS FOR THE YEAR ENDED MARCH 31, 2008

Budgeting Procedures

As disclosed in Note 2, the Township spent amounts in excess of the approved budget during the year ended March 31, 2008. This is a violation of Public Act 621 of 1978. Budget variances of this sort are not unusual in governmental accounting. The Township management has been monitoring and amending the budget as necessary, the two budget variances noted were insignificant when compared to the overall budget of the Township.

Segregation of Duties

Because of the limited size of Summit Township's accounting department, proper segregation of duties cannot be accomplished. This is an inherent weakness in the internal controls of the Township. Township executives - supervisor, clerk and treasurer need to continue exercising appropriate management oversight to compensate for this. The township does segregate duties as much as possible for its size. The solution would be to hire additional employees, which would be an inefficient use of Township resources.

GASB 43 and 45 Other Postemployment Benefits

Summit Township provides health insurance to retirees who qualify under the Township's current policy. New accounting pronouncements will require the Township to account for the unfunded liability beginning April 1, 2009. We recommend that the Township continue its discussion to determine the steps the Township will take to account for these obligations.
